Information Exposure for Consumer IoT Devices: 
A Multidimensional, Network-Informed Measurement Approach

Jingjing Ren, Daniel J. Dubois, David Choffnes (Northeastern University); 
Anna Maria Mandalari, Roman Kolcun, Hamed Haddadi (Imperial College London)

Data Sharing Agreement for Payload Dataset

To receive access to the Payload Dataset for the paper “Informational Exposure for Consumer IoT Devices: A Multidimensional, Network-Informed Measurement Approach”, published at the Internet Measurement Conference 2019, you must agree to the following terms:

1. **LICENSE.** You are given a non-exclusive and non-transferable license to access and use the dataset for the purpose of non-profit research and education.

2. **NON-DISCLOSURE.** You will not disclose the dataset to any person other than those employed by your institute who are assisting or collaborating with you using the dataset. Other entities must request access to the dataset separately by sending a request to moniotr@ccs.neu.edu.

3. **MANDATORY CITATION.** If you create a publication (including web pages, papers published by a third party, teaching material, and publicly available presentations) using data from this dataset, you must cite our paper as follows:

   - **Title**: Information Exposure for Consumer IoT Devices: A Multidimensional, Network-Informed Measurement Approach
   - **Authors**: Jingjing Ren, Daniel J. Dubois, David Choffnes, Anna Maria Mandalari, Roman Kolcun, Hamed Haddadi (Imperial College London)
   - **Venue**: Internet Measurement Conference (IMC) 2019

Or, in bibtex format:

```latex
@inproceedings{ren-imc19, 
author={Ren, Jingjing and Dubois, Daniel J. and Choffnes, David and Mandalari, Anna Maria and Kolcun, Roman and Haddadi, Hamed}, 
booktitle={Proc. of the Internet Measurement Conference (IMC)}, 
year={2019}}
```
4. **CONFIDENTIALITY.** All data from this dataset is confidential. You agree to protect the confidentiality of the data and to prevent its unauthorized disclosure and use.

5. **ANONYMIZATION.** For any publication or other disclosure, you will anonymize or de-identify any credentials, authentication tokens, unique identifiers, and any other personally identifiable information you find in the dataset.

6. **NO ABUSE.** You will not attempt to use any information that can be derived from the dataset for purposes that are different from non-profit research and education. This includes disclosing any form of credentials or personally identifiable information found in the dataset, or using them for the purpose of gaining unauthorized access to any third-party services or systems. We have done our best to ensure that the dataset contains no data that could be used to compromise our systems; however, if you find any vulnerabilities or credentials in the dataset, you must responsibly disclose them to us or the manufacturers of systems affected by them.

If you agree to these terms, please follow the instructions on the paper website (https://moniotrlab.ccs.neu.edu/imc19) or write an email to moniotr@ccs.neu.edu with the subject “IMC 2019 Payload Dataset.” In the body of the email, you must state that you have read this agreement and you agree to abide by its terms. Please be sure to include your name and affiliation in your email.
